

Job perspective: Lipotype Lab Assistant

Dresden, Germany | Full/Part-time | Begin: preferably today

Are you interested in a position with competitive pay in a friendly atmosphere with career perspectives?

Is that you?

We are looking for a lab assistant who will be involved with lipid analysis and is willing to become an expert in mass spectrometry. You should be an organized person with experience in laboratory work who gets a kick out of performing reproducibly and precisely.

Lipotype – Lipidomics for a better life

Lipotype is a spin off company of the MPI of Molecular Cell Biology and Genetics in Dresden, founded by no other but Kai Simons. We are serving pharma, cosmetics and nutrition companies as well as academia worldwide. Most excitingly, we are engaged in R&D aiming at increasing global health. You can be part of a team that is moving health and prevention into unexplored territory. **Join the lipid revolution!**

A fantastic workplace atmosphere

Down-to-earth, driven, enthusiastic – just a few of the attributes visitors use to describe us. Our offices are cheerful with plants and other accents of green, and “strategically placed” exercise balls encourage communication. All of us contribute to Lipotype.

Apply now

Please send your application to career@lipotype.com. If you have further questions please contact Evi Kluge (kluge@lipotype.com).

Join our Lipotype team to realize our joint vision of lipidomics for a better life!
