Careers at Lipotype – Lipidomics for a better life

11. April 2022

Job offer: Lab technician

f/m/d | Dresden, Germany | Full/Part-time | Begin: as soon as possible

For our lipid analysis team we are looking for a Lab technician. You will be responsible for sample processing for lipid analysis with mass spectrometers. Tasks include automated or manual sample preparation, lipid extraction using a robotic liquid handling station, organization of sample sets, laboratory and equipment maintenance, and associated laboratory routines.

Who you are

- You are a highly organized person, accustomed to routine analytical tasks requiring high reproducibility, precision and cleanliness.
- Fluency in English is a prerequisite skill.
- Hands-on experience in automated liquid handling and high-throughput processes, as well as a practical knowledge of QM is an asset.
- You are trained as biological technical assistant/ medical technical assistant (biologisch-techn. / medizinisch-techn. Assistentin – BTA / MTA) or within an equivalent training program in biology, biotechnology or medicine.

What we offer

- the opportunity to contribute to our cutting-edge analytical services serving industry and academia worldwide,
- a dynamic start-up atmosphere with down-to-earth colleagues in an international environment, flat hierarchies, and attractive salary
- and legendary company events!

Who we are

Lipotype is a spin-off company from the Kai Simons and Andrej Shevchenko labs of the world-renowned Max-Planck-Institute of Molecular Cell Biology and Genetics in Dresden, Germany. Lipotype delivers comprehensive, absolutely quantitative lipid analysis services for clinical and biological samples on a high-throughput scale. Lipotype offers high quality lipid analysis services for a wide range of customers and applications including biomarker identification for clinical researchers, pharma and biotech companies, functional food development for the food industry, claim support for the cosmetics industry, as well as for the small-scale profiling needs of academic researchers.
