

OPEN SEMINAR | 2025

Lipidomics in Neurodegenerative Disease Research

Registration

Image source: iStock/Juan_Fan

Learn about how **quantitative lipidomics** can impact neurodegeneration mechanisms, aiding **biomarkers** and **drug discovery efforts**!

Program Table

Opening Remarks

Dr. Oliver Uecke (CEO, Lipotype Inc.)

Introduction to Lipidomics and Q&A

Dr. Christian Klose (CTO, Lipotype Inc.)

25 MIN

Targeting Lipid Metabolism for Parkinson's Disease Therapeutics

Speaker TBA

25 MIN

Alzheimer's Disease Risk Triad Drives Perturbations in the Global Lipid Economy of the Brain.

Dr. Rebecca Pinals

25 MIN

Stearoyl-CoA Desaturase Inhibition Prevents Multiple Parkinson Disease Phenotypes in Mice.

Dr. Silke Nuber

25 MIN

Networking and Lipid Rafting

Monday, June 23rd
3pm

CIC – Cambridge Innovation Center
5th floor, One Broadway,
Cambridge, MA 02142, USA

Our Speakers

Dr. Christian Klose
CTO of Lipotype

Dr. Rebecca Pinals
Massachusetts Institute of Technology,
Picower Institute, Postdoctoral Fellow

Dr. Silke Nuber
Brigham and Women's Neurology,
Instructor in Neurology,
Principal Investigator
